Sakai LMS is...

Innovative, exciting instruction and learning

Built by educators | Fully open source

MEANINGFUL LEARNING

"I use Sakai as an alternative to traditional student research papers. My students can present their writing, design it for best effect, and integrate various kinds of media. Because they are having fun, they're surprised at how much they learn."

— Marisa Sullivan, Durham Technical Community College

— Julianne Morgan, University of Dayton

"Sakai is feature-rich and robust. You can build a truly meaningful learning experience within Sakai that I have not seen in other LMS systems."

FACULTY AND STUDENTS FIRST

Sakai solicits the best ideas of instructors and students.

New: Sakai Conversations

- Threaded discussion and anonymous Q&A
- Developed with instructors and students from Duke University

PARTICIPATORY

Sakai's open roadmap helps ensure energetic innovation.

Adopted Worldwide

Hundreds of world-class universities make up Sakai's global community, including:

- Pepperdine University (USA)
- Kyoto University (Japan)
- Valencia Polytechnic University (Spain)

BEST FOR PRIVACY

Sakai helps you secure your student data.

"Because Sakai is open source, you can maintain control, possession, and ownership of your student data over the long term."

— Dr. Charles Severance, Sakai Founding Architect

Offers all of Sakai's innovation and privacy protections.

Partners seamlessly with your existing LMS via LTI Advantage.
